THE WASTED QUIVER Love came one might when the revel was wild

All in a grand saloon,
And tripped about like a fairy child,
And danced to a lively tune. He came where a pair were playing at 'Rounce,'
And he shot at the lady fair,

But his bow was snarled in the lady's flounce, So his arrow stuck in her hair.

Then at one as bright as a topical dream, All steeped in a languid tune, Love sent his shaft with a silver gleam Like dew beneath the moon, The arrow flew in a music gush Was lost in a silken rustle, But ah ! what a whispered, fluttering rush,

When it struck a-patent bustle. Then he pulled at a man with a foreign air, With a clanging sword and a sash, Assuming the roll of the 'do and dare,

But acting that of the 'flash;' And he, the gallant and bold 'son of Mars,' Would scorn Love's flimsy net, So the arrow said from out the bars Of his gaudy epaulette.

And then on a dandy all polish and smell, The heir of his father's house, With a puppy's face and gooses swell, With the talent and tact of a louse, I am sorry to say love wasted a dart, The dandy thought it a jest,

But the shaft was true and found his heart,

When it struck in his padded vest. And then for a passive creature, With a perfectly outlined bust, With elegant classic features, And a faint sweet odor of musk, Love fitted his choicest arrow, And tipped with a glittering stone,

But it fell to the ground like a sparrow,

It struck on a corset bone.

Then 'out' he cried, 'your corset ribs,
And out on your skeleton skirts,
Your faces are fair, but your lives are fibs, You're a terrible army of flirts.'

HOMES FOR ALL. THE AMERICAN EMIGRANT AID AND HOMESTAD ON DAMANY, having 16 headquarkers in the Oity of New York has been organised for the sole and definite, nurpose of collecting information from all parts of the country wherein destrable lands may be had at low prices, and country wherein destrable lands may be had at low prices, and country wherein destrable lands may be had at low prices, and country wherein destrable lands may be had at low prices, and country wherein destrable lands may be had at low prices, and country wherein destrable lands for improve them. It has been allently perfecting its arrangements and correspondence for hore than a year past; until it is now ready to offer to settlers a range for selection embracing more than Orie Million Acres of cheap wild lands, with some improved farms, manyly in the States of Yirginia, Pennsylvania, Tennessee and Missouri; and it will soon extend its operations into other States.

To immigranis from Europe, to the energetic young men of our compactly settled States and sections, to the hives of mechanics and laborers who throng our cities and live in constant and reasonable dread that panic or pestilence, war, revulsion, or some alteration in the channels of trade,

war, revulsion, or some alteration in the channels of trade, may at any moment, denrive them of employment and their families of bread, we say, resolve now, while you may, to

families of bread, we say, resolve now, while you may, to seek a home where such perils are unknown.

We mean to sell lands, as well as negotiate for purchasers with those who have large tracts for sale, in every part of the Union; but our attention is more apecially directed to the neighboring States—Virginia, Kentucky, Tennessee, and Missourt. Vindiria especially proffers at this time remarkable inducements to immigrants. Her climate is temperate and genial—the Peach, the Apple, the Pear, the Grape, alike thrive in it—it is far better and more desirably Timbered than almost any new State; its navigable rivers and innumerable, available streams, water-power, and profusion of the most valuable minerals—Coal, Iron, Sait, Copper, &c.—are unsurpassed; the State has expended large sums in constructing Oanals and Railroads across its entire breadth, which place almost eyery county within a few hours' ride either of its seaports or of the great inland cities of Cincinnati, Pittsburgh, Wheeling, Louisville, &c.; yet fertile, inviting land, whether improved or new, is far cheaper this day in the Mother of States, than it is in Minnesota or Oregon. No where else on earth can lands filled with accessi-No where else on earth can lands filled with accessicellent alike for Grain and Grass, Fruit and Roots, be ob-tained so cheaply as in Old Virginia; while to men of considerable means we can sell good farms almost within sight of Washington City for less than the fair cost of the improve-

tained so cheaply as in Old Virginia; while to men of considerable means, we can sell good farms almost, within sight of Washington City for less than the fair cost of the improvements.

The TABLE LANDS of EAST TENNESSEE present some of the most inviting fields for industry and enterprise on this Continent. The climate is salubrious and healthful. Its soil is adapted to all Agricultural pursuits. Its unimproved Lands ase covered with useful Timber, or present natural openings, and Meadows producing nutritious Grass. The farmet can have his products on shipboard in 80 hours and can buy his Groceries, Dry Goods, etc., at home, as cheap as any one in New England. Yet, we can sell him good Lands, with perfect titles, at from one to three dollars per acre.

A word as to the single objection which has kept these lands so long uncultivated, and which now keeps them in market at a bare fraction of their intrinsic value—that of Slavery. This Campany has only to deal with any institution as a subsisting fact, over whose existence or character it has no control. But we say in all confidence to intending settlers, Slavery in Virginia need not and should not serve longer as a hindrance to settlement on your part. That grand discovery of our age, Concession Immoration, practically disposes of it, so far as you are concerned. Let heads of families, including farmers, mechaftes, millers, &c., take counsel together, and resolve to seek new and more eligible homes in company. Let them, clubbing their means, send two of their humber to look at such lands as we are prepared to sell them. Let these delegates, after a sufficient scrutiny, buy from five to twenty thousand acres in a body, embracing all the good points they require, then let them survey the whole into farms and lots of convenients size, and put these up at auction to the highest bidder, whether a member of the company or not. Each member will of course be entitled to a return in land or unney of the sum previously contributed by him to the company's funds, and to his

seasons. This, day, more than half the arable land in Virginia has never been turned by a plow, while much of the good lands once generously productive, is now but meagerly so. Good treatment will readily and cheaply restore them to their pristine fertility. No stronger inducement to industry, no nobler theatre for exertion, 's proffered anywhere on earth.

Call and see our maps, descriptions, surveys, etc., or write to us (enclosing postage stamps, of course), and your inquiries shall be answered as far as practicable.

etc., has become so common, that the publie are justly suspicious of nearly everything that is offered under similar forms, and the trade has thus been brought into disrepute. It has remained for our house (established in 1778) to supply the pressing popular need, and to inaugurate a new era in the history of the Trade. We trust that our established reputation - founded upon eighty years of experience - abundantly vindicates our claim to public confidence.

CASES AND CURES.

Dyserpsia.

A young lady of 26 had been troubled with indigestion for several months, so as to render great care necessary in the selection of her food. After eating, the stomach became acid, food rising in her mouth with water, and an unpleasant, heavy, load-like sensation in her stomach, continuing for one hours, frequent headaches, bowels constipated and a depressed mental candition. See commenced taking the Dyspepsia Pills, one morning and night, and in less than a week almost every symptom of her disease had vanished,

week almast every symptom of her disease had values, and she felt like a new being.

A gentleman somewhat advanced in years, strong, robust constitution, had lately been a good deal affected with indigestion, weak stomach, coated tongue, bad taste in the mouth and attended with a peculiar vertigo and whirling in the

A gentleman, a public lecturer, took a severe cold the latter part of last month, while traveling and lecturing in northern Pennsylvania, though addressing public audiences every evening; yet in two days, by the aid of the Specific, he was entirely recovered, and enabled to pursue his calling without inconvenience. No public speaker should be without them.

A married lady of 40 had taken a violent cold, which settied on her lungs, causing severe cough, pain in the side and considerable fever and hourseness. Such colds were usual-ity very lasting and troublesome; but by taking the Specific Cough Pills, four times per day, in three days she was en-

lrely well.

A young man of 22 had a cough and hoarseness for fifteen A young man of 22 had a cough and hoarseness for fifteen months. During cold weather his voice was lost so as only speak in whispers, pain induced on coughing, cold dry orraising only a trifle in the morning, quite feeble and emaciated. Had taken several medicines with but little or no benefit. He commenced with the Cough Pills—one pill three times per day—and soon found himself improving, his cough milder and softer, hoarseness passed off, strength and appetite improved, and in a few weeks was entirely well having taken no other medicine. PILES.

PILES.

A clergyman of the Baptist Church, well known in Illinois writing to us, says: "I have been for some time seriously afflicted with bleeding piles; and have regarded my case as a severe one—at one time, indeed, hopeless; but I have used your medicine (Pile Specific), and am cured. I have no doubt you are laying the world under great and lasting obligation."

A gentleman of fifty years, well and favorably known at Celhi, Delaware county, New-York, had been a marty to the piles for twenty years. Sometimes from excessive hemorrhage, pain and suffering, he was reduced to the verge of the grave. For years he had dragged out a miserable existence, a confirmed invalid, disqualified for any business, and life almost a burden. It is needless to add that he had tied all sorts of remedies, from all sorts of doctors, to little purpose. He consulted me two years ago, and I recommended our Pile Specific, with, eccasionally, a Dyspepsia Pill,—Prom this he began to improve, and since has never had a serious turn of piles. From the first month up to a year past he had occassionally, symptoms of his old compiaint; but a few doses of the Pile Piles would disperse it all, and for more than a year past he has been entirely well of the piles. A more brilliant cure is searcely to be found in the annals of medicine.

No family should be without these invaluable curatives.—
They are the only remedies perfectly adapted for domestic and private use. With them the parent is armed and prepared against the first approach of disease, and can meet it at the threshold and began at at bay. A trifle of medicine rightly directed in the first hours of descase, perfectly cures that which by delay can only be relieved by long and tedious hours of suffering if at all. With these at hand, you are not obliged to await the coming of that often distant, as well as expensive luxury, a door; nor to be drugged or poisoned, or blistered, or bled, but may yournaid administer the simple specific, and restore the ruddy, current of life again to health and joy. There cannot only no injury arise in any case from their use, but the general influence upon the constitution, beyond all question, is most beneficial.
